Workshop Outcomes:

- To reflect on progress to date with the framework
- To share progress on school clubs
- To share learning from satellite clubs
- For NGBs to reflect on these and look at what this means for your sport

School Clubs

- Led by the school/college, supported by the school/college staff and school sport coaches

- On a school/college site

- After out of school hours provision approx 4.00/4.30pm

- Clear positioning School Clubs at KS3 (with some yr 6 engagement) - we need to support young people by providing an environment for them to develop their skills, attitude and ability as either a performer or leader

- Another key component of these clubs are for young people to become familiar in committing to something and putting into practice their 'stickability'

C4LSCs Concepts and Principles

- Is ‘owned’ by young people and the school
- Happens once a week
- Takes place regularly at the same time and place beyond OSHL provision
- Planned and delivered across the whole year
- Expectation that there is some sort of subscription and affiliation/ membership
- It includes coaching and an element of competition
- There are opportunities for young people to lead and volunteer (50% workforce are young people)
- Has a brand/name

Satellite Clubs

- We need to develop the components of what a high quality satellite club should look like.
    - Clear links with a ‘hub’ club
    - Led by a coach from the hub club
    - Different types of membership
    - Hub club branded
- Approx 4.30/5.00pm – 7.00pm
- We need to acknowledge that young people will want different club experiences
    - Participation for performance
    - Young person who is motivated by a social experience.
- Taking the club experience to where young people are already gathering i.e. in the youth club setting
